As a designer, I am passionate about bringing new perspectives to the realm of creative vehicle design, because change is indeed the only constant. I believe in the importance of learning every day, and this belief drives me to constantly upskill and push the boundaries of traditional design. I am eager to put my skills to the test through full-time opportunities in design studios where I will be able to contribute and collaborate with design teams to envision mobility solutions of the future.

EDUCATION

- Bachelor of Fine Arts in Transportation Design** | College for Creative Studies
GPA – 3.95/4.00 | High Honors & Imre J. Molnar Artistic Achievement Award recipient
Sep 2021 - May 2025
