**HOBBIES
AND
INTERESTS**

Creation is my main pursuit in life. With this I have been creating in a variety of mediums while at CCS such as music production with Ableton Live, Oil painting, Drawing and sketching, digital artwork with photoshop and illustrator, sculpture, metal fabrication, and writing. I have strong design and perspective drawing skills and am a good colorist. In my free time I like to read up on the histories of artists I am interested in like Picasso. I also am an active tennis player and ran a half marathon in 2017.

EXHIBITIONS
