## PROFESSIONAL EXPERIENCE

### Amazon // Warehouse Associate // Caledonia, MI

Tasked with packing customers' boxes, this job taught how jobs will be easier with rock-solid coordination. Observing a floor manager and leading a small team on the floor awarded experience delegating and conquering specific challenges.

// Nov. 2020 - Aug. 2021 //

### Bradly's HG // Retail Associate // Lansing, MI

A clothing outlet and accomplished furniture store in the heart of Lansing; What's not to love? Daily tasks included taking pictures for the stores social media pages, giving the store mini makeovers while managing a \$300 til. The better part of the job was done onsite, however there were home installations the company did free of charge. This involved handling high-value furniture, where a single mistake could result in immediate termination.

// Sep. 2022 - Aug. 2023 //

### Two Men and a Truck // Mover // Grand Rapids, MI

Picked up heavy stuff... Put down heavy stuff. Not a whole lot to the job at first but certainly valuable lessons to be learned about making every new environment as efficient as possible. This taught me to have quality and speed together.

// Jun. 2024 - Aug. 2024 //

### CCS // Wood shop Work Study // Detroit, MI

Dangerous equipment if you don't treat it with the respect it demands. Fairly nice job; teaches to manage a studio space and uphold rules that keeps students from losing fingers and going to the hospital.

// Apr. 2024 - May 2024 //

### Askia Inc // Sales Representative // Troy, MI

Communication is key in sales roles. This strengthened my ability and confidence to assert when it's genuinely beneficial. I sold an average of 2 products each day, saving customers \$50-\$100 on their monthly bills.

// Jun. 2025 - Aug. 2025 //
