

Tanner Ostrum

Transportation Design and Modeler

Professional Summary

Seeking a job in the digital sculpting department of the transportation industry. Being technically minded and working well with others allows the production of aesthetically beautiful but functional designs. A position that allows freedom of expression, while promoting collaboration would be ideal.

Experience

Starbucks Barista	May 2021- Aug. 2022
Working here taught many customer skills, but also the ability to work under a large pressure from management.	
Doordash Dasher	May 2023- Sep. 2025
Being a dasher teaches many skills, and by necessity management and customer skills, to keep making money.	
Management Briefing Seminars 2024	August 2024
A seminar focused on informing the automotive industry where the governments and companies stand on issues and finances.	
American Chemistry Council Sponsered Studio	Sep. 2024- Dec. 2024
Mobility design studio focused on recyclability and use of plastics in the automotive industry.	
General Motors Sponsered Studio	Jan. 2025- May 2025
Interior design studio focused on a family style vehicle with incorporation of AI.
