

# Alec Sobol

Product Design Student

I am a driven industrial design student with a passion for crafting diverse concepts, detailed research, and emerging technological solutions. I have experience in design research, product development, as well as prototyping, branding and aesthetics. My focus is on creating designs that seamlessly blend aesthetics and functionality to improve everyday experiences and environments.

Procreate

## Experience

### Garmin Sponsored Studio

Fall 2024 | College for Creative Studies | Detroit, Mi

This project centered around creating security and safety concepts for Garmin's design team. This project allowed me to work directly with industry professionals receiving feedback and presenting deliverables.

### Render Relay Design Competition

April 2024 - Present | College for Creative Studies | Detroit, Mi

I was given the opportunity to become the current admin of Render Relay by fellow CCS students Lear White and Dominic Cancino. The competition is ran through Instagram and allows other students to refine their skills in 3d as well as expanding their portfolio of work through monthly competitions judged by industry professionals.

### Dahsheng Chemical Sponsored Studio Project

Fall 2023 | College for Creative Studies | Detroit, Mi

This project consisted of developing an insole concept for Dahsheng Chemical while working alongside CMF students. This project allowed me to work directly with industry professionals receiving feedback and presenting deliverables.

### Production Associate

Spring 2021 - Winter 2023 | Home City Ice | Romulus, Mi

General production role, leadership, packaging, organizing, and shipping product. Managed warehouse space and maintenance of machines.

### Assistant Art Teacher

May 2018 - Sept' 2018 | Toledo Museum of Art | Toledo, Oh

Helped to assist art teachers with young children and getting supplies, collaborated to plan new projects, and general cleaning.
