PROJECTS

Research Paper for African American Lit. (AP Class) — *We were allowed to choose our own topic, and it had to be 5-7 pages long. We needed like 3 different head topics and how it changed or what impacted it through African American History. My topic was African American female musical artists and how they impact history throughout the year.*

This was the end-of-year project, and it was a very big grade.

Animation Production — *We were randomly chosen to work with people in groups on these projects. My professor wanted us to learn how to work more as a team and finish 2 short films. I was able to learn so much about how to work as a team and see what everyone's skills were.*

This was my 2nd semester of films in 2025 at the end of the year.

Animation Junior Film- *I've been working on my junior film since 2025 of the first semester. I started working on it during the summer of 2025 and I got done with my pre production. Now in 2026, I will get it done by the end of my semester.*

This is a whole-year project
